

Short Bio:

Chris Schaffner, PE, LEED Fellow is founder and CEO of The Green Engineer, Inc. a sustainable design consulting firm located in Concord, MA, and a Lecturer at Northeastern University in their Sustainable Building Systems program. Chris has over 30 years of experience in the design of building systems with a focus on energy efficiency, sustainability, and human health. His portfolio includes more than 200 projects that have achieved LEED Certification and several of the first WELL Certified projects in North America. Chris served as volunteer and 2019 Chair of the USGBC's LEED Steering Committee. He is also a WELL AP, a member of the IWBI's WELL Comfort and Air Advisory, and a member of the WELL Faculty.
